Failure to attend the briefing may result in exclusion from participation at the meeting.

11) FIRST TIME DRIVERS AT THIS EVENT

Failure to attend this briefing may result in exclusion from participation at the meeting and/or further penalties as may be decided by the Stewards. Drivers with no competition history are required to attach a "P" plate to the rear of their car.

12) PRACTICE

All competitors will, as directed by the Clerk of the Course, take part in practice as scheduled in the event program. Practice is required by all drivers; if you are unable to practice you must see your Group Leader/Clerk of the Course and present your case.

13) DETERMINATION OF LAP TIMES

Competitors are requested to nominate a lap-time on the Entry Form to determine your practice grid position. The practice session lap times will be used to determine your allocated lap time and grid position for the event. New drivers with no available time will be allocated a time placing them at, or near, the rear of the field. New drivers must abide by this time and are not to pass any car unless absolutely necessary and safe to do so. For any subsequent change your allocated time you must confer with your Group Leader who will seek approval from the Clerk of the Course and Stewards.

A minimum lap time for the circuit may be nominated by the Organisers, Clerk of Course and Stewards at their discretion. Any driver exceeding the nominated minimum circuit lap time either during practice or in the Event, may be black flagged and may be excluded from the Event, and/or subject to further penalties.

Drivers are reminded that this is a Regularity Trial and not a race.

14) START PROCEDURE

The starting order / grid position for your events will be posted on notice boards and provided to Group Leaders after the practice session. Grid Marshals may be required to alter the order throughout the event. Competitors will assemble in the dummy grid area in the pre-determined order and, upon direction from the marshals; will enter circuit for a warm-up lap behind the Safety Car during which overtaking is prohibited. For practice and each event a Safety Car will lead the field out from the dummy grid and the last car will be followed by a Sweep Car. Competitors are to remain bunched up prior to the start and if the Safety and Sweep Cars consider the field is **not** tight enough the Safety Car will do another lap until such time as the field is set to compete.

At the event start the Safety Car will move ahead of the field and exit the circuit at the Pit Entry. The pole position driver will maintain pace with all vehicles a 2 x 2 formation until the final corner prior to start/finish line where they will form up in single file.

The event format is a rolling start, NOT a flying start and the field is to be kept closed up with no overtaking before the start/finish line.
